Here's your quote for the 12 Things "newsletter." Riley is getting the photo today.

Don:

I am fine with mentioning the relationship LAPD has with the Melrose BID. However, I do not want the language to be such that an inference may be drawn that without the association with the BID then LAPD will not provide service. The message that you sent I believe can be misconstrued.

I would like to make a slight change in a supporting comment and the message I approve of is the following: "LAPD Wilshire Division and the Melrose BID are in partnership working to provide the best in police services for the Melrose business district.

Let me know if this works for you or if you have any further edits you would like to make.

Rolando

Good Morning...

We are preparing a "Melrose BID Newsletter" around the topic of "things that the BID can do that property owners' acting on their own cannot." It's going to have a photo of an LAPD patrol vehicle or possibly an LAPD officer talking with our BID Ambassador. I'd like to include a "quotable supporting comment" from the Wilshire Division Commanding Officer.

Maybe something like: "LAPD Wilshire Division is better able to provide services in the Melrose business district because of our partnership with the Melrose BID." Any modifications to your preference are fine. You can see the community network we're trying to promote.

We are, of course, under a time bind and would appreciate your ability to consider our request as soon as possible. Thank you, Rolando.
